Number 1 Poultry, London, is protected with Solar Gard Armorcoat 7 mil Clear Safety Film

Window **film**

Number 1 Poultry is one of the most distinctive buildings in London's bustling financial district. Designed by award-winning architect Sir James Stirling, 1 Poultry is home to a range of shops and offices and offers some of the best views of the city from its rooftop.

With more than 2000 square metres of glass at 1 Poultry, the building management

team was already fully aware of the risks that flying glass could pose and had installed bomb-proof window film some years ago. However, with the film having reached the end of its useful life, the decision was taken to replace it with a newer, stronger window film. Signwise, the Solar Gard dealer and installer specified and installed Solar Gard Armorcoat 7 mil Clear Safety Film.
