Solar Gard® Clearshield Installation Techniques

Solar Gard® Installation Techniques is a comprehensive, hands-on one day training course covering all the basic skills and techniques you need to successfully install paint protection film to a wide variety of cars and trucks. The curriculum is highly interactive and provides for necessary one-on-one attention to develop both your understanding of the product and your hands-on skills.

Clearshield Installation Training is carried out in our purpose built tint shop training centre near Worcester. The one-day training will consist of both theoretical and practical training.

The one-day course is an advanced level course designed to sharpen your skills and introduce you to new techniques that may improve your speed and productivity.

Some of what you will learn during the course:

- **Understanding Clearshield**
Product features and benefits
- **Work intensely on the techniques used to install Clearshield on a variety of car models with the latest tools and accessories**
- **Learn how to conquer paint protection film installation challenges, such as compound curves, dealing with contamination, etc.**
- Discover the latest computer cutting technology designed to improve productivity and increase profits

The course is recommended for Window Film dealers interested in building upon their paint protection film knowledge. Prior window film experience is not required.

Enrollment Fee : Please call for details -

Ask us how you could get free training

Each attendee will receive:

- All training material and tools used during the course will be supplied
- Clearshield installation manual
- Clearshield training videos on CD ROM
- Product information
